

**SPIA Electives List
By Policy Area
Fall 2020**

July 21, 2020

Effective with the Class of 2021, 200 level courses will not fulfill WWS elective requirements.

Each Student must complete four electives from those included on this list. Courses have been classified into broad categories under three policy clusters: 1) Human Welfare and Social Policy, 2) Security and Sustainability, or 3) Institutions and Networks. Within each cluster are specific policy areas that bring together elective courses from several disciplines that address a related set of issues. Two additional types of cross-cutting courses on methodology/decision making and regional studies are also included as options for electives. The list of electives aims to help students create a coherent, interdisciplinary program of study in public and international affairs that builds depth of knowledge within a specific policy area. Students declare their cluster and policy area at the time of entering WWS. Students may select any combination of courses from this list of approved electives, but they are strongly encouraged to focus their course selection within their chosen policy area. Except for WWS and methodology courses, students may take no more than three electives from the same department or program. The courses listed here have been offered recently, but not all will be available in any given semester or year – the registrar website provides information on current course offerings.

Pay close attention to the title of the course you plan on registering for and make sure it matches the title on the electives list. For some topics courses the course number may stay the same, but, the title and content may change; such courses would not fulfill an elective requirement.
